

## CARE & MAINTENANCE

### CARE AND MAINTENANCE

#### Resin Wicker Care:

Resin Wicker is becoming one of the most popular choices in outdoor furniture. The best way to keep resin wicker looking like new is to take steps to prevent damage from the elements by using a protective cover. The simplest and most inexpensive method to keeping your furniture clean is to pull out the hose and spray it down. Occasionally, when simple hosing off the outdoor furniture does not work, a simple mixture of mild dish soap and water is your best solution. The most important things to avoid are corrosive or abrasive cleaners and other cleaning products such as steel wool that may permanently scratch the surfaces.

#### Aluminum & Sling Care:

Aluminum and sling furniture is a carefree and popular choice for outdoor furniture. The best way to keep your furniture looking like new is to take steps to prevent damage from the elements by using a protective cover. The simplest and most inexpensive method to keeping your furniture clean is to pull out the hose and spray it down. Occasionally, when hosing off the outdoor furniture does not work, a simple mixture of mild dish soap and water is your best solution. The most important things to avoid are corrosive or abrasive cleaners and other cleaning products such as steel wool that may permanently damage the surfaces. Caution must be used when using an umbrella in your glass table.

#### Cushions Care:

Cushions offer both style and comfort to your outdoor furniture. The best way to keep your cushions looking like new is to take steps to prevent damage from the elements by using a protective cover. Fabrics should be cleaned regularly before dirt and food particles are allowed to accumulate. Regular cleaning of your outdoor cushions will eliminate the need for more frequent vigorous cleaning. Spot wash the cushion with a sponge or soft bristle brush and a solution of water and mild dish soap. For more difficult stains a commercial stain remover may be used (follow manufacturer's instructions and spot test). It is recommended that the fabric be Scotch Guarded every time the fabric is washed and stored indoors when not in use to prolong the life of the fabric. Do not machine wash or put cushions in the dryer.
