

## CARE AND MAINTENANCE

### CLEAN UP

The natural appearance of NextStone products are maintained with little effort. Although NextStone products will get dirty, like anything exposed to the atmosphere, a heavy rain or a simple washing with a garden hose will do wonders. If additional cleaning is required the following steps outline the recommended cleaning procedure.

#### Step 1:

Any liquid soap or a light spray of simple green or the equivalent, followed by light brushing with a soft bristle brush will work with our product. NextStone recommends using whatever product you choose on a small area first, to check for color fastness. You can either use a soft bristle brush with a garden hose or a pressure washer. If you use a pressure washer, be SURE not to get closer than 12 inches and not more than 1500 PSI.

#### Step 2:

For mildew we recommend the cleaning solution X-90. It is very effective in removing mildew from vinyl siding, and will work on our product. It would be prudent to test a small area first with any new product.
