

CARE AND MAINTENANCE

Cleaning and Maintenance:

- Clean all liquid spills immediately. Simply dust mop or vacuum with a soft brush or wood-floor accessory to keep your floor clean from dust, dirt or grit.
- A damp cloth or mop can be used without damage to the laminate panels, but do not use excessive water.
- Never spray water directly onto floor. Dry the floor thoroughly with clean, soft cloth.
- Do not use soap-based detergents, abrasive cleaner, or combined “clean and shine” products on your laminate floor.
- Do not use steel wool or other scouring pads that may scratch laminate panels.
- Do not wax or polish your laminate flooring.
- For best results, use a cleaning kit. Apply felt pads to furniture legs to avoid scratches. Save a few extra boards for the future to replace a damaged panel.
