

# ArmorLock Modular Carpet Clip

ArmorLock Industries Carpet Clip connector system can be used with nearly all carpet tile backings. This clip is designed to be used as a glue-less alternative in carpet tile installation. The benefit of not using full spread adhesive in your current installation is that there is no adhesive to remove or abate in future installations. The use of the ArmorLock Carpet Tile clip makes the products used easier to recycle upon replacement by eliminating adhesive residue from the carpet tile.

- First true mechanical floor option for modular carpet tile
- Easy Installation
- DIY carpet tile installation
- 100% recyclable

**ARMOR LOCK**  
— it just SEAMS right
